

	Exemplary	Proficient	Developing	Not completed
<b>Downloaded graphs</b>	Successful download of at least 4 requested graphs from the Harvard Forest LTER Schoolyard website	Successful download of at least 3 of the requested graphs from the Harvard Forest LTER Schoolyard website	Successful download of at least 2 of the requested graphs from the Harvard Forest LTER Schoolyard website	Correct graphs were not downloaded properly
<b>Graph result Statement</b>	Result statements for each graph were very well written, precise and accurate	Result statements for each graph were well written, but could be more precise or accurate	Result statements for each graph were written, but needs much more development to make more accurate	Result statements were not written for each graph
<b>50% data download</b>	Successful download of all 50 % data and properly organized	Successful download of all 50 % data, but not properly organized.	Somewhat successful download of 50 % data and not organized.	50 % data not downloaded.
<b>Determined Growing Season</b>	Successful reorganization of data to determine growing season length for various years	Mostly successful reorganization of data to determine growing season length for various years	Organization of data not properly done, so not able to correctly determine growing season length for various years	Data not reorganized and no growing season length was determined
<b>Growing Season graph(s)</b>	Correct graph made to compare growing season length. Proper title and axis labeled	Correct graph made to compare growing season length. But no proper title and/or axis not labeled	Graph was made incorrectly.	Graph was not made.
<b>Growing Season result statement</b>	Result statements is very well written, precise and accurate	Result statements is well written, but could be more precise or accurate	Result statements for graph was written, but needs much more development to make more accurate	Result statements were not written for each graph
<b>Conclusion/Summary paragraph</b>	Summary paragraph accurately tells the story of the tree including purpose and major findings, expanding as needed to explain the tree's story.	Summary paragraph tells the story of the tree including purpose and major findings, but expanding is needed to fully explain the tree's story.	Summary paragraph does not fully tells the story of the tree, missing purpose and/or major findings, and needs expanding to explain the tree's story.	Summary paragraph not written
<b>Above and beyond</b>	Student went way above beyond to download additional data to compare more trees than requested	Student went above beyond to download some additional data to compare more trees than requested	Student went beyond to download a limited amount of additional data to compare trees	Student did not go beyond what was assigned.
